

About the London Eye	
<p>When pupils are enjoying a lesson it shows. It shows in their attention levels, in the effort they put in and the results they achieve. The Education Programme at the London Eye offers maximum educational value through unique and stimulating learning experiences. From every angle, the London Eye is an exceptionally useful and inspiring educational tool. This is because so many different disciplines went into its creation and there are so many ways in which it can be used to exemplify aspects of learning; whether in specific areas such as design, technology, architecture and engineering, or more broadly to promote numeracy and literacy, commercial or community issues.</p>
